

eConsult

Receive clinical consults
within **5 days**

With **eConsult**, physicians and nurse practitioners can ask specialists for advice and easily send data from a PC, Mac or mobile device, getting their patients the care they need quickly and securely.

Fast, complete and convenient

Electronically exchange patient information such as notes, images and x-rays with Ontario specialists and securely receive advice, an answer to a clinical question, or a diagnosis in less than 5 days.

Easy access to specialists across Ontario

Using OTNhub's directory, find and contact Ontario specialists in over 25 areas of care, including cardiology, psychiatry, hematology, and nephrology. Directory profiles provide information about practitioners and organizations, and how best to connect with them for their expertise.

Testimonials:

"I've had a great experience using eConsult. Most specialists respond to me the same day with practical, direct advice and next steps for treatment and monitoring."

Family Physician, Hamilton

"eConsult gives me access to specialties not available in my region, and with its help, I've been able to prevent patient travel."

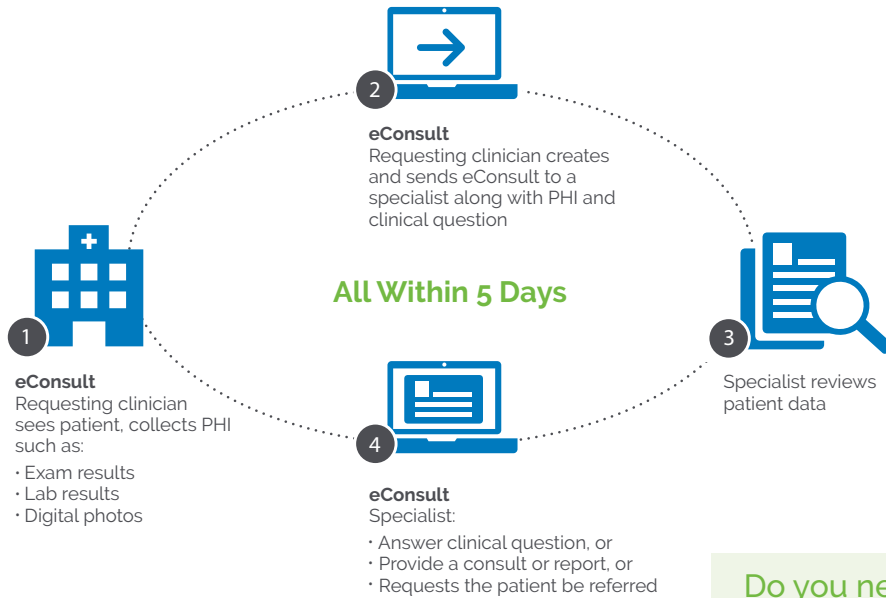

Family Physician, Sudbury

"As a specialist, I thoroughly enjoy clicking on the various consults that come my way. eConsult allows me to educate my peers by sending relevant, complementary images or articles."

Neurologist, Toronto

Enhance patient care

Patients feel greater satisfaction with a faster diagnosis and without the stress and anxiety associated with wait times and travel. Thousands of physicians and nurse practitioners across Ontario see the benefits to patient health every day.

Available at no cost to you

eConsult is integrated within OTNhub. Accessing OTNhub is free for healthcare practitioners funded 50 per cent or more by the Ministry of Health and Long-Term Care, a Local Health Integration Network or the Ontario Health Insurance Plan (OHIP).

A billable telemedicine service

Where applicable, caring for patients through telemedicine is billable. Providers can submit their bills for consultations directly to OHIP.

Accessible on OTNhub

OTNhub is Ontario's telemedicine community where healthcare professionals practice telemedicine. Privately and securely access a variety of online tools that make it easier, faster and more convenient for you to connect with peers, and engage with patients. Also, access thousands of educational learning resources, live and on-demand, to improve the quality of care you deliver.
