

# Codec – Cisco Room Kit

## Key Features:

- All-in-one unit: codec, camera, microphones and loudspeakers
- The system mounts on top of the monitor
- It is ideal for rooms that seat up to seven people
- The system can only be operated by a wired Touch 10 controller
- The system can get two additional table microphones
- Presets are available to setup on the system

## Limitations:

- Fixed camera with 3x digital zoom capabilities, limited pan/tilt and no Far End Camera Control
- Using the Far End Camera Control within OTNHub videoconferencing with this system will be available in January 2019
- The Room Kit cannot be used on medical carts

## Basic Specifications:

- Dimensions: 3.5" H x 27.5" W x 2.9" D
- Data sharing is done through an HDMI cable
- Support dual monitors
