

MEDVu-R1/MEDVu-rDoc Retrofit Clinical Cart

Cisco or Polycom codec

Key Features:

- Specially designed to provide a cost effective solution to a Cisco Intern MXP or iDoc clinical cart to ensure patient safety and maintain current CSA 60601.1 compliance
- Eligible for trade-in manufacturers incentives
- Used in applications requiring mobility and the use of clinical peripherals
- Optional use for educational or administrative events
- Includes an 8" storage drawer
- Hospital recommended 5 wheel anti-tip inverted one piece cast base
- Multi Manufacturer supported codec (Cisco/Polycom)

Limitations:

- Must have an existing Cisco Intern MXP or iDoc clinical cart to retrofit and reintegrate some existing core components.

Basic Specifications:

- Displays available: 32" monitor
- Dimensions: Depth: 27", Width: 27", Height: 58"
- Approx. 105 lbs
- 5 Year warranty on cart and cart components ** excluding the video codec and camera
- CSA certified 60601.1 for several OTN supported codecs
- Compatible OTN supported Medical Peripherals
- Additional Switchers used for digital conversion and simplified use
- Medical grade isolation transformer
