premium videoconferencing.

I am...

a health information system vendor

I need to:

- Install services at multiple sites.
- Meet with multiple sites to agree on an implementation plan.

Solution

OTN Premium Videoconferencing!

Benefits

All hospitals involved meet simultaneously and agree on an implementation plan, eliminating travel expenses.

a PACS and DI-r vendor

I need to:

- Communicate a new feature release to radiologists across the province, some of whom cannot attend at the appointed time.

Solution

OTN Premium Videoconferencing!

Benefits

Radiologists unable to attend at the appointed time can view the archived webcast at their convenience without additional meetings or travel.

a pharmaceutical sales representative

I need to:

- Call on customers at several primary care facilities.

Solution

OTN Premium Videoconferencing!

Benefits

One call to customers at many locations. Save time and increase productivity and reach.

a CME provider

I need to:

- Update key opinion leaders at many sites around the world about a new drug

Solution

OTN Premium Videoconferencing!

Benefits

Key opinion leaders can access an archived webcast at any time without having to travel.

As the world leader in telemedicine, we're helping Ontario get more out of the healthcare system, bringing more patients the care they need, where and when they need it. Our innovative use of today's and tomorrow's technology streamlines the healthcare process, eliminating unnecessary travel and giving patients better access to their doctors and other healthcare professionals.

OTN is an independent, not-for-profit organization, funded by the Government of Ontario.
